Годар, который, по его словам, спускался в подземелья, ища там гробницы, и не находил их, а только развалины древних жилищ, и не мог ничего доказать. В то время, когда он был в Париже, существовала легенда о том, что в подвале некоего дома, в котором жил некогда великий французский философ, в том числе и Декарт, был спрятан гроб с останками некоего человека. Годар был убежден, что именно там и находится гробница, которую он искал. Однако, когда он спустился туда, то обнаружил, что там действительно был гроб, но в нем не было никаких останков.
